

European Castles have caused wars; inspired fairytales; and defined entire nations. Europe is the birthplace of the castle, and is home to the vast majority of 'authentic' castles in the world. Although European castles have passed their heyday, there are still tens of thousands of castles dotted across mainland Europe. Some are 'disappeared', others are in ruins, and some again are luxury homes. Let's get stuck in and explore some of the greatest castles in Europe. The Balkan Castle Tour offers a true fairy tale adventure. You will visit most beautiful castles in Austria, Hungary, Slovenia, Croatia, and Romania. Allow the unforgettable experience in most impressive manors to take you to medieval period for a moment.
